New York Stock Market SALES

New York, April 6 .- Trading fell to the low point of the year on the Stock Exchange; in fact, it was the dullest July of 1908. The level of prices did not vary perceptibly at any time during the entire session, and even the specialties which were the features of yesterday's market were comparatively quiet. Efforts to create a market for these stocks, which have no bearing upon the general market, met with no success, and merely served to emphasize the paraly-sis of speculation and the unwilling ness of traders to make fresh ventures until some clear idea is obtained as to tariff legislation and decisions in the anti-trust cases. United States Steel was the one stock to be specifically affected by Washington news, but made no response to the introduction in the House of a resolution similar to that presented to the last Congress, calling for an investigation of the steel corporation.

Bonds were more active relatively than stocks, and the sales of Amerlean Tobacco and American Telephone Telegraph bonds were large, re flecting the recent tendency on the part of investors to buy securities of industrial corporations which have found greater favor following the railroad rates agitation and the decisions against the roads. The bond market was steady. Total sales, par value, \$2.954,000. United States bonds unchanged on call. Total sales for the day, 133,100 shares of stocks.

New York, April 6 .- Money on call steady, 2@23-8: ruling rate, 21-4; closing bid, 21-4; offered at 23-8. Time oans dull and soft; sixty days, 2 1-2@ 23-4 per cent.; ninety days, 3; six months, 3@31-4. Prime mercantile paper, 4 to 41-4 per cent. Sterling exchange firm, with actual business in bankers' bills, at \$4.8420 for sixtyday bills, and at \$4.8625 for demand. Commercial bills, \$4.83 1-2. Bar silver, 53. Mexican dollars, 45.

New Orleans, La., April 6.—Spot cotton firm and unchanged; middling, 144c. Sales on the spot 560 bales and 475 to zrrive. Cotton futures opened steady at an advance of 263 points on good cables. Good rains in the Eastern portion of the cotton belt were ignored. Soon after the call special buying set in, which was credited to one of the large Southern operators. The ring became excited, shorts covered and scalpers went long for a turn. Prices advanced sharply, the old crops reaching a level 12613 points over yesterday's close, while the October delivery stood 6 points up. The market was steady throughout the morning session. Bulls in the old crop months were encouraged by cable messages from Liverpool stating that Russia was a heavy buyer of futures there and that the consumption of American cotton in Italy would probably be larger by 160,000 bales than it was last year. At the highest the old crop months were 13 points over yesterday's close, and the new crops were 5639 points over. In the afternoon session the market was quiet and steady, closing price being at a net advance of 3612 points. Closing bids: April, 14.31; May, 14.47; July, 14.48; August, 13.83; October, 12.55; December, 12.55.

"As the Twig is Bent So is the Tree Inclined" This is a wise saying by a wise man. Bring your children

American National Bank

Let them open their own accounts and see where the money is kept. This will train them in business affairs and safeguard their savings against such a robbery as was reported the other day in the papers, when a thief stole a bank which contained \$4.00 belonging to a little citizen of Richmond. Children take pride in watching their pennies grow into dollars, and will remember the days to get their money put on the books.

They will thank you in years to come.
